client: ABB- Process- Solution Milano
project: LISCO
location: RUN OUT TABLE

The order for 100 units of AC roller table motors in a special construction was placed in may 2007.

For the special case „Run Out Table“ the motors were constructed with a double-labyrinth in stainless steel at the driving side.

The power supply is effected by a plug in protection class IP67 at the output side.

100 units of AC roller table motors

type:	KDR 24H25-6
power:	8,0 kW
nominal moment:	66 Nm
acceleration moment:	180 Nm
max. moment:	240 Nm
Nominal current:	14,0 A
speed:	1160 min ⁻¹
voltage:	460 V
frequency:	58 Hz
frame:	B3
protection:	IP67
